Manifesto

Well we ain't kids anymore, and we sure are wise with our time.

We play, we make our music, our noise.

After all this time, we're still damn faithful to rock 'n' roll, and the freedom that it brings us.

Manifesto!

And as I was saying, we know we're not kids anymore, and that's kinda liberating.

Making music for the fun of it, and to keep ourselves in check, and mainly to give our prospective audience a good bloody time.

Square

I've always been what you want me to be,

I've always seen what you want me to see,

I've always known what you want me to know,

I've always gone where you want me to go.

I'm a sad old man, and I make no bones about it at all.

I'm just an empty man, and I make no bones about it at all.

Mindleash

Life is just one heartbeat away,

Death is just one heartbeat away,

Light is just one heartbeat away,

Darkness is just one heartbeat away.

Can't stand political sickness,

Can't take deception, lies,

When everyone just seems to look up to suits without a soul,

I'm amazed at why they need a leash at all.

Mindleash for submission...

Mindleash to conform...

Mindleash for submission...

Mindleash is the norm...

I'M MY OWN MAN!

Ain't Got No Easy Life

Ain't got no easy life,

Ain't got no easy love,

Oh no, I don't know what to do about it.

It Wasn't Easier

It wasn't easier today, I've been lost so many times, but I've never gone astray,

It wasn't easier to say, so many things I mean but which go opposing ways.

It's not easy but I don't care,

So many problems riddling all my life,

It's not easy, no I don't care,

There must be some way out to stop the strife...

Whatever happened? I'm full of cares...

Whatever happened? My mind's in shreds...

Fine With It

Well, I'm fine with it, though I know it's not alright,

Happiness comes at many conditions,

Fine with it, though I know it's not alright,

Good attitude, sound mental position.

It's not what you know, not what you feel, it's your attitude to what comes to you that matters,

Shake off your thoughts, shake off your problems,

Don't you know that you're gonna live forever? No?

Dead Planet

We've betrayed the Earth on which we're livin',
Destroyed the work of flourishing life,
In such a short time we've sucked all life's riches, all its work: inner terrestrial suicide.
Dead planet: all around death, destruction... no way back.
Dead planet: empty seas and skies.
Is this a world you'd choose to live in, or in which to die with peace of mind?
I look around and see you from the corner of my eye, wallowing head down in the dark.
Dead planet: all around death, destruction... no way back.
Dead planet: empty seas and skies.
The cause, the reason of extinction lies deep within, dead planet self-deception, lies.

Shut Up!

Recurrent tension in my head,
And I can't seem to level my mind,
A thought process with no end,
There's a thought-worm in my head.
There's a thought-worm in my head,
And I can't seem to get it out,
My head is overloaded... SHUT UP! SHUT UP! SHUT UP!
Why don't you say your prayers, why don't you hide?

Hate

See them cry no more,
See them fight no more,
See them die no more.
Hate follows hate around... it follows its kind back to where it belongs.

Friendly Enemy

Why are you doing this to me? Why, killer technology?

Why are you doing this to me? Why, my friendly enemy?

Wake Up

A world gone mad, for tech gratification of our minds,

A world gone bad, we can't seem to hold ourselves in check,

Well I don't know what you've been told or how you see your life,

But man the road we seem to be on don't seem much too bright.

But I don't know if there's a way for us to wake up,

No I don't know if there's a way for us to wake up.

You see, it ain't so hard to criticize the *status quo*,

What's hard is finding out new ways to solve the issues that we have.

Well I don't know what you've been told or how you see your life,

But man the road we seem to be on don't seem much too bright.

Seether

Seething with imagined but real rage of might,

So strong it hurts and pulls away,

At those thousands, millions of nerves and points of life,

I'm not myself...

Somehow I've got to let it go, yeah I've just got to lay down low.

Peaceful and in balance, the world's just rays of light,

Tribulations and despair cannot even matter,

No place for darkened days... I'm on my way.

Somehow I shouldn't let it go, but I'll just have to lay down low.

Corona (Panic Hoarder's Song)

There's something in the air tonight... it's all around,
There's something in the air tonight...
Pasta, rice and toilet paper, they're all but gone!
Coronavirus... they're gone.
There's something in the air tonight... it's all around,
There's something in the air tonight...
Coronavirus... we're gonna die! Coronavirus... we're dead!

I Can't Seem To Remember

When I said all I said to reach you,
All I did, well it took determination,
Had I known it'd break you, make you cry,
And make a mess of a hopeless situation,
Well I know that I'd say it again,
No I'm sure that I'd say it again, alright? Yeah?
Yes, I'm sure that I'd say it again, really sure that I'd say it again, alright?
Yeah it's alright...
Well I can't seem to remember when things changed in my mind,
No I can't seem to remember...
You didn't believe me when I said there's no two ways about it,
Our time is up... can't stand you so what about another FREE ME?

Stoic

I've been so tense about so much before,
It's been so very hard to let thoughts go...
What if I could control everything I want?
What if I just gave it everything I've got?
When things go South just do the best you can,
When life gets hard just do the best you can.
What if I could control everything I want?

What if I just gave it everything I've got?

Appetite For Destruction

Been around a long, long time,
And we've never been so many before,
Got an appetite for destruction and we keep comin' back for more...
Destruction of our home,
Rejection of common sense.

It Isn't Me

I think I would lose my mind, with no chance to chill, unwind,
If I had to tell you everything about how I feel and why,
I don't think you deserve my time, nor attention, advice or anything...
Self-absorbed, ego-driven and scared,
I don't think you'd understand how to free yourself from anything.
So you put up your usual airs, you put me off and now I don't care,
Still you ask me whom of us is bound to his own cares.
Well... It isn't me! I'm on the outside...
I'm not the one to be alone inside my mind.
Damn! Enjoy your self-made misery...
You're trapped within your thoughts,
With no way out... it's stifling.
I'd help you if you'd only let me tell you how,
But what's the use of trying?
